# FIRST AID TRAINING FOR CHILD & INFANT 1-DAY COURSE

Learn basic first aid knowledge, skills and confidence to respond to common emergencies for child and infant. Essential for professionals who work closely with young children and infants; including teachers, playgroup leaders, *au pairs*, nannies and child-minders. The program provides an ideal training solution in managing illnesses and injuries happens in young children and infants in the first few minutes until medical help arrives.

## TOPICS

First Aid Essentials	Fainting and Shock
Cardio Pulmonary Resuscitation (CPR) for Child and Infant	Bone, Joint and Muscle Injuries
Recovery Position	Drowning
Choking Management for Child and Infant	Common Medical Problems in Children and Infants: <ul style="list-style-type: none"><li>- Anaphylactic and Epinephrine Injection usage</li><li>- Seizure</li><li>- Asthma</li></ul>
Minor Wounds, Burns and Bleeding	

There are two categories of certification: competence and attendance.

### CERTIFICATE OF ATTENDANCE

Upon completion of the course, each participant will receive a certificate of attendance. It has no expiry date.

### CERTIFICATE OF COMPETENCE (Valid for two years)

#### Requirement:

- Attending the whole session of the course.
- Achieve 75% in the written test
- Achieve 90% in Practical Test

It is recommended that skills are kept regularly updated with refresher/recertification training programme, at least a month prior to the expiration date of participant's certificate of competence.

### CLOTHING

Due to the active nature of practical skills training, participants are requested to wear suitable clothing and footwear. Casual trousers or jeans are recommended. Students will be bending, kneeling and performing First Aid on the floor.
